

## DEPLOYABLE RIGID CUBESAT ANTENNA

MMA'S DRaCuIA Antenna is a flat, rigid-panel antenna, leveraging flight-qualified HaWK and E-HaWK solar array deployment systems.

### Key product features:

- Flat, rigid-panel antenna
- Converts solar array panel substrate into an antenna
- Deployed area is three times the area of the stowed face
- Allows any face of the CubeSat to house an antenna
- Can be used with customer or MMA furnished 3U or 6U antenna panels
